

K-5100 | Telescopic loppers | 660-1000 mm | Ratchet system

The Metallo K-5100 is a robust lopper with a bypass (parrot beak) cutting head and powerful lever mechanism, designed for effortless pruning of live wood. The oval aluminium telescopic handles (660–1000 mm) provide extra strength and leverage. The carbon-hardened blade has a teflon coating to reduce friction and keep...
